

## plettac Fills Car Park

Kings Waterfront Formley Kings Dock is part of the Liverpool South Docks system which became redundant in 1972. It covers 14.6 Hectares and some time was the largest undeveloped site in the city Centre. The site is owned by the national regeneration agency English Partnerships.

plettac Security UK Ltd have supplied a full plettac open security architecture (POSA) system, FAC940 cameras, Digital video recorders (SentiO) & Automatic Number Plate Recognition System, THE ANPR System will be integrated across the Liverpool City council car parks, and provide information on vehicle en-

tering & leaving plus the amount of time they were parked for, in the future this may allow for different types of charging for the use of car parks.

Local Installer ICS Intergrated Communication Systems Ltd based at Knowsley installed the full system with support from plettac's own engineering staff. The system will grow to cover most of the site, there are 130 plettac FAC940 cameras these are use a 1/2" sensor to provide excellent images under the car park lighting. The POSA system integrated with the SentiO DVR's provides an very flexible working system for the operators,
